SCHEDULE A: LOCAL PARKING CONTROLS

Guidance on use of schedule:

- All distances are measured from the centre line of the nearest intersecting road, in the cases where there is no centre line marked on the intersecting road, the start point is the centre point of the intersecting road.
- The distances shown indicate the start and end points of a restriction from the nearest intersection.

Parking time restrictions

Guidance on use of schedule:

- All distances are measured from the centre line of the nearest intersecting road, in the cases where there is no centre line marked on the intersecting road, the start point is the centre point of the intersecting road.
- The distances shown indicate the start and end points of a restriction from the nearest intersection.
- The direction indicated column describes the direction of the arrow for the parking restriction from the point where the restriction starts or ends and is described as being viewed from the road centre line.
